

# Call for Papers

18th Aviation Student Research Workshop  
5 & 6 June 2020 in Bremen and  
European Prize in Aviation Economics and Management

We are happy to invite you to present your aviation-related research at the forthcoming, 16th G.A.R.S. Junior Workshop taking place in Bremen on the 5<sup>th</sup> & 6<sup>th</sup> of June 2020 organized in collaboration with the Hogeschool van Amsterdam. The contact to fellow researchers is often limited especially in the early stages of the academic career. This G.A.R.S. Junior Workshop is the ideal, rather informal platform to share aviation-related research work with other students and experienced researchers in the field. All submitted papers independent of whether they are work in progress, preliminary drafts or final drafts will be evaluated by experienced reviewers. All submissions to the G.A.R.S. Junior Workshop will further be considered for the Best Paper Prizes sponsored by the Hong Kong Polytechnic University and Routledge. There are two prizes in the categories Bachelor and Master (up to 400 EUR) as well as PhD (up to 600 EUR) as well as book vouchers. The hand-over ceremony will be held during the 9th European Aviation Conference, "Aviation, Climate Change Dynamics and Environmental Policy", Heilbronn University of Applied Science, November 11-13 2020. For more information about the European Aviation Conference, please check the conference website <https://www.eac-conference.com/>. A special feature of this year's conference is that the participants of the G.A.R.S. Junior Workshop are very much invited to the GARS Summer School in Aviation.

## Topics

The list of hot topics in aviation economics and management and related disciplines is long and attracts a growing number of Bachelor, Master, Diploma or PhD students. Topic examples are market exit and bankruptcies in air transport; hybridization of airline business models; shortcomings of the current slot allocation regime; air transport forecasting; airport and ATC congestion; environmental footprint of the air transport sector; economic regulation, liberalization and privatization.

## Venue and registration cost

- The workshop will take place on the 5<sup>th</sup> & 6<sup>th</sup> of June 2020 at the University of Applied Sciences Bremen and is free of charge.

## Submission of paper and poster proposals and papers:

- Please submit an expression of interest in presenting by email no later than 30th April 2020 to [shravana.kumar67@gmail.com](mailto:shravana.kumar67@gmail.com) and attach an abstract (400 words maximum) of your work as PDF.
- The abstract should contain the background/aim, methodology, research contribution and (expected) results of your work.
- Information on acceptance will be provided by 6 May 2020.
- Participants should submit their paper by 25 May 2020.
- Exception: If you apply for travel subsidy (see below), the full paper will be due on 30 April, together with the abstract.
- Please submit an expression of interest for a proposal for a *poster* no later than 25 May 2020.

## Travel subsidy

- A limited amount of travel subsidies are available for junior aviation researchers, who need financial support to be able to participate in the G.A.R.S. Junior Workshop. If you require financial support, please indicate it in your submission.
- You are kindly required to a) explain your financial need for travel grant briefly in the expression of interest and b) submit the paper by 30 April already, together with the abstract.
- We will notify you on 6 May 2020 to what extent financial aid can be provided (no legal entitlement).

## Contact

- Please submit your abstract to Shравan Kumar [shravana.kumar67@gmail.com](mailto:shravana.kumar67@gmail.com) as soon as possible but no later than 30th April 2020
