

Training School on Aviation

BERGAMO | 2017 (7th – 15th February)

Venue:

**Cloister of Saint Augustine, piazzale Sant'Agostino, Upper Town
Rosate Palace, piazza Rosate, Upper Town**

ABOUT ATARD Training School

The ATARD Training School is organized for advanced master students, Ph.D. students and post docs.

The aim of the Training School is to provide intensive training in the methodological approaches used to evaluate the impact of air transport on regional development. Furthermore, the ATARD training schools are the place to share knowledge and increase collaboration between participants.

ABOUT ATARD

Air transport is generally considered to be a key factor for the economic competitiveness of the most developed regions of a country and for the social welfare of the less developed ones, which often are remote regions difficult to access through other transport modes. However, the relationship between air transport and regional development has not been fully investigated considering all the relevant dimensions. Building advanced knowledge about such relationships, with a focus on Europe, is the main reason for this Action.

More details on the action can be found at <http://www.atard.net/>.
