

## Setting the stage for the upcoming European Aviation Conference

### Open Access Webinar on

### *Decarbonising Air Transport: Acting Now for the Future*

16 September 2021, 14:30 to 16:00 CEST via Zoom

In this session, the International Transport Forum at the OECD (ITF) will present key findings from its latest report on [Decarbonising Air Transport: Acting Now for the Future](#). The report provides an overview of technological, operational and policy measures that can accelerate the decarbonisation of air transport. The discussion will focus on the most promising decarbonisation measures, the progress to date and the latest political developments on decarbonising air transport in Europe, and the possible paths to decarbonising the aviation sector.

#### Chair:

##### **Jagoda Egeland**

Advisor to the Secretary-General, Aviation Policy Lead
