

5th GARS Summer School 2024

SAVE THE DATE: Friday & Saturday, 21 & 22 June 2024

Antwerp Management School, Boogkeers 5, 2000 Antwerpen (Belgium)

GARS, the University of Antwerp and the Antwerp Management School are pleased to host the 5th GARS Summer School 2024, which is supported by the Air Transport Research Society, the Bremen University of Applied Sciences, The Hong Kong Polytechnic University, Hogeschool van Amsterdam and [airliners.de](https://www.airliners.de). The Summer School will start right after the 21st GARS Junior Research Workshop, which takes place on 20 & 21 June.

Topics

Following the format of previous Summer Schools, we will combine lectures on core concepts in aviation economics and management with updates on current issues. The topics covered will include airline management, air traffic management, research methods, benchmarking of airports, economic regulation, as well as environmental economics and policy. This year there will be a particular focus on airport charges, slots and management of scarce airport capacity as well as airline profit performance. The lecturers include:

- *Brian Pearce, Honorary Professor UCL Executive Director Air Transportation Systems Laboratory*
- *Barry Humphreys, Aviation Consultant, BKH Aviation, UK*
- *Sven Buyle, University of Antwerp*
- *Peter Forsyth, Monash University Melbourne*
- *Achim I. Czerny, The Hong Kong Polytechnic University*
- *Cathal Guimard, Dublin City University*
- *David Starkie, Economics plus London*
- *Hans-Martin Niemeier, UAS Bremen*
- *Sven Maertens, DLR, Cologne (TBC)*
- *Ane Elixabete Ripoll-Zarraga, Universitat Autònoma de Barcelona, lecturer, consultant*

The detailed lecture program will be published in due course.

Venue, registration cost

The summer school will be held 'in-person' format. It is free of charge but all participants are asked to join GARS.
